

3rd National Conference for ESPs in Children's Orthopaedics

Bedford
21-22 March 2019

Following on from the first course in 2013 and the second in 2017, we are delighted to announce a further improved course for 2019. Thank you those 94 of you who left constructive feedback! We have worked hard to take your messages on board and hope that this course will be even better. We have included:

- New topics (and some old favorites)
- Smaller break out sessions
- A wider spectrum of speakers

This unique meeting will cover a variety of topics from the basic building blocks of children's orthopaedics to some super-specialist topics. There will also be plenty of time to network with colleagues.

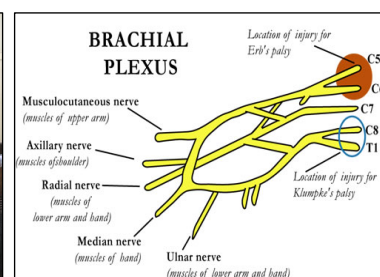

Who should attend:

Established ESPs – come and share your experience
New ESPs – come and consolidate your knowledge
Aspiring ESPs in children's ortho. – a great place to start
Anyone else with an interest in children's orthopaedics

Bring your difficult or interesting cases for discussion.

Please note that places are limited. Book early to avoid disappointment!
